The diagram shows a pattern for the back of a baby ringer onesie. It consists of three nested lines: a green outer line, a cyan middle line, and a pink inner line. The top edge of the pattern is curved, while the bottom edge is straight. On the left side, there is a vertical line that is slightly angled towards the top. Three measurements are indicated at the top left corner: 9m (between the green and cyan lines), 6m (between the cyan and pink lines), and 3m (between the pink line and the inner edge of the pink line). The pattern is intended to be cut on a fold, as indicated by the 'Fold Line' label on the right.
